

MENTORSHIP PROGRAM CONTRACT

The purpose of the Yggdrasil Mentorship Program is to assist you to identify and tend your sacred wound and transmute it into a sense of visionary calling and a life of soulful purpose and connectedness. This occurs in the context of unconditional loving support and reflective listening without judgment.

This is not psychotherapy, but rather the opportunity to do your soul work with the help of a personal mentor who offers a deep witnessing presence and the benefits of years of soul work experience.

In particular, this contract represents a commitment between _____ (you) and your Yggdrasil mentor _____ for 6 sessions at the cost of _____ per session (\$50-100 sliding scale).

All 6 sessions are payable in advance and are non-refundable. Please pay through Paypal from the [Mentorship Program page](#) of Yggdrasil's website.

Sessions will be 60-90 minutes long and scheduled in advance with all 6 to be completed within a 3-month period. Both mentee and mentor will be present on time for each session and will contact each other ahead of time to re-schedule if a cancellation is truly unavoidable.

After reviewing the initial application together and discussing what the mentee most wants to accomplish during these sessions and how it relates to the four soul tasks, the following goal(s) have been set:

Together the mentor and mentee will develop strategies and assignments toward fulfilling these goals.

All personal sharing will be held in confidence. Sessions will be recorded but shared only with the mentorship committee for the purpose of mentor supervision.

At the final session, the mentor and mentee will evaluate the progress and may decide to renew the contract for another 6 sessions, revising goals if necessary.
